## More Indictments Made in Ball Probe

### GRAND JURY TURNS INVESTIGATIONS ON BETTING POOLS

EIGHT SOX PLAYERS, PRIZEFIGHTER, GIANT, EX-SOX ARRAIGNED.  
Quiz Resumed  
Huge Profits Made by Gamblers Are Brought to Light.

Chicago, Oct. 22.—Grand jury investigation of baseball gambling will take a new turn today when the Cook county jurors begin an inquiry into betting pools. Eleven indictments against baseball players and gamblers also will be voted today. It is reported that the criminal court building. Eight will be against White Sox players against whom true bills were returned last month. The other three are understood to involve a former prizefighter; and two former ball players, one of whom was a member of the New York Giants and the other at one time was a White Sox player.

**Pool Profits Disclosed.**  
The state's attorney's office announced an investigation of a baseball pool was disclosed that 134,500 combinations were sold during the past season for \$1 each. Only \$21,500 in prizes were paid, and after all expenses were met the gamblers had a profit of \$104,000.

Among the witnesses called to testify today are three St. Louis men whose names were brought into the investigation through the inquiry. St. Louis last fall played Chicago, St. Louis, and the Chicago White Sox. After the series closed, President Charles Comiskey of the Sox, sent a letter to the state's attorney, in which he stated that the management of the series was "thrown."

**Johnson May Testify.**  
President E. B. Johnson of the American League returned today from St. Louis and may go before the grand jury again, it was said.

In an interview with a reporter, Johnson says that he has refused to handle bets on the series for "Sport" Sullivan of Boston, who is supposed to be the grand jury. Long says, according to the published interview, Sullivan then added in handling the series, "I am not a man at even money that Cincinnati would win the first two games."

**Put Money on Reds.**  
Johnson also says, according to the interview, that Sullivan wired other gamblers and obtained additional funds to bet on Cincinnati when he found plenty of Chicago gamblers. Long says in his interview, but he did not take the advice.

**BUSINESS OUTLOOK**  
IS BRIGHT SAYS GARY OF STEEL INDUSTRY

Washington, Oct. 22.—Business prospects are unusually bright, both in the United States and abroad, John D. Gary, head of the United States Steel Corp., declared in an interview with the Associated Press.

"Although this is a time for courage, composure and caution," Gary said, "practically without clouds. As always, there may be showers from time to time, but there is no indication of the atmosphere of the approaching of dangerous storms."

**Reaction Seems Improvable.**  
"If there should be a serious reaction and depression," Gary continued, "it will be the fault of those who are connected with business, who are not connected with business, or of others who are improperly interfering, and not because of any fundamental deficiencies in our resources and opportunities."

**Trend Is Toward Basis.**  
"The present tendency toward a lower, more stable basis," Gary said, "is a fact that every individual is perfectly willing that all others should make reduction in prices. The law of adjustment of prices. The law of supply and demand will be the principal factor."

### BLAINE DENOUNCES NEWSPAPERS AND COLONEL M'COY TELLS OF POLITICAL DIFFERENCES WITH JOHN M. WHITEHEAD.

200 HEAR ADDRESS  
Declares Himself in Favor of High Income Tax and Against Military Training.

Speaking before an audience of 200 at Eagles hall here last night, Attorney General John J. Blaine, Republican, running for governor, denounced the newspapers and Colonel M'Cooy.

Blaine, who scored his opponent, Col. Robert B. McCoy, for his stand on two issues, told of his differences with Ex-Senator John M. Whitehead and a score of other Wisconsin newspapers opposing him in his campaign.

He talked for more than an hour and a half, and was interrupted 17 times by applause. The address followed the regular meeting of the Brotherhood of Railway Trainmen.

Throughout he made a plea for the vote of the working man, putting himself on record as favoring a high rate of income tax, higher tax on large incomes, putting a stop to the centralization of government in Washington, and the direct market system. He talked for the republic.

He denounced McCoy for his stand in favor of compulsory military training, which he said would mean an annual expense to the state of \$200,000,000, and the taking, from work, of 100,000 able-bodied men to go to military training camps.

**Compulsory Military Training.**  
"This is compulsory military training with a vengeance," he exclaimed. "I look with horror upon this vast preparation for war."

He declared himself unalterably opposed to the national military and naval program, which proposes an expenditure of \$1,500,000,000 annually, all to be raised by direct and indirect taxation.

He further condemned McCoy for advocating the "further" extension of the Pennsylvania system, imported from Russia, of mounted state police to ride up and down the state, disturbing the peace of the citizens.

In un veiled words he denounced the Janesville Gazette as having made "vicious, untrue, and unwarranted" statements about him, and declared he was not supporting the state newspapers as he was not supporting the "wrecking" of the state.

Every newspaper against him has either been bought or has its own selfish interest to serve, he declared, going on to say that the same newspapers fought La Follette in 1915 and 1916.

**State His Position**  
"I am in this campaign as a republican," he declared, "and I believe in those things which I believe to be in the interests of the common people. I am advocating those things which are practical and which will make the burden of the common people a little lighter and not any hidden schemes."

**WOMAN HELD FOR STEALING PLATINUM**  
Washington, Oct. 22.—Florence Weiler, who, according to the federal authorities, recently was indicted for the theft of \$12,000 worth of platinum stolen from the army's ordnance bureau, was arrested today by federal agents.

According to federal agents, thefts of platinum from the war department during the war totaled more than \$500,000. The platinum stolen was sold to jewelers in this and other cities.

### Janesville Will Aid Starving, Dying People in Polish War Zone

Janesville is asked to participate in the work of relief to the starving people of Poland. Eighty thousand women and children and men unable to enter the army to keep off the Russian Bolshevik hordes—innocent victims of war and horror and revolution, stand in line daily for food.

**Non-Sectarian Relief Fund**  
They have no homes; they have been driven away by war and pillage, and what happened in Armenia has happened in Poland, Ukraine, Lithuania and the other bordering provinces and countries on the boundaries of Russia.

Jews and Gentiles they are and the empty stomach of one is just as appealing for food as the other. The Jewish relief society in America has sent several millions of dollars to these people for food. They have made no distinction in feeling the starving, and now over the country there is a loud appeal made for more help.

In Janesville it is desired to raise several thousand dollars. If the bread and meat wasted from the tables daily in Rock county could reach the people of these lands it would be more appreciated than money.

Louis Levy has been appointed chairman of the non-sectarian fund in Janesville. "You can send funds to him. Here is the address: Louis Levy, Chairman, The Golden Eagle, Janesville, Wis."

Watch the Gazette daily for the report. The sum of \$1,000.00 was contributed by the Janesville community. The most noted philanthropist and leader of the movement has to say in a telegram to Mr. Levy:

**Approve Bank System**  
The resolutions committee report expressed complete approval of the Federal Reserve system; condemned the efforts of the government to create a central bank; and urged the establishment of a national bank system.

**Condemns Speculation**  
The report condemned speculative hoarding in various commodities and urged the government to take action to prevent speculation.

**Favors Immigration**  
While favoring immigration as a means of preventing labor shortage and enabling the country to develop its resources, the committee report also expressed the opinion that the United States faced an era of world leadership and prosperity which could only be lost by imperialistic or failure of national leadership.

**GENERAL BIDDLE TO RETIRE FROM ARMY**  
Washington, Oct. 22.—Retirement of Brig. General John Biddle, who commanded the American troops in England during the war, was announced today by the war department.

**JERSEY HEARS COX, "MAN WHO MAKES WOBBLER WOBBLE"**  
Trenton, N. J., Oct. 22.—A one day campaign in New Jersey was ordered today by Gov. Cox of Ohio, with noon theater meeting at which the democratic presidential candidate asked for a "mandate" to carry out his program.

**G. M. Todd Transferred To Washington Camp**  
Washington, Oct. 22.—Transfer of Brig. General Henry Todd Jr. from Camp Meade to Camp Custer, Mich., to command of the thirty first brigade of the coast artillery corps at Camp Lewis, Wash., was announced today at the war department.

**Farmer Kills Companion, Shoots Self**  
Merrill, Wis., Oct. 22.—Carl Schiller, a wealthy price county farmer, accidentally shot and killed Patrick Connolly, an old time lumberman, while the pair were on a timbering trip near here yesterday. He then killed himself.

Connolly, according to the story brought here today, was a friend of Schiller's. When the lumberman passed through a strain of brush, Schiller mistook him for a bear and fired. Connolly died instantly. When he saw what he had done, Schiller turned the gun on himself and blew out his brains.

**Drop in Wheat Sends Flour Down 1 a Barrel**

### NATION WAITS FOR GOVERNMENT TO STATE ATTITUDE

LLOYD GEORGE DETERMINED NOT TO GIVE IN IN SPITE OF ULTIMATUM. MAKES DEMANDS Pledge for Increased Production Is Required of Miners.

London, Oct. 22.—British labor and the country as a whole waited anxiously today for the government's next move in the deadlock over the strike ultimatum delivered by the railwaymen yesterday and an almost equally pointed threat from the transport workers.

The representatives of the National Union of Railwaymen were in session and it was understood that a conference for Wednesday next of the executives of the affiliated unions to consider methods of helping the miners in their effort to settle the strike.

This afternoon it was announced that the parliamentary committee of the trades union congress had called a conference for Wednesday next of the executives of the affiliated unions to consider methods of helping the miners in their effort to settle the strike.

Interest in the strike was centered today on number 10 Downing street, the official residence of Mr. Lloyd George. The premier was expected to make a definite announcement of the stand the government would take.

Members of the cabinet held a long meeting last night, but the decisions reached were not made public. It was learned that one matter discussed was an appeal to the country for a mandate to settle the miners' strike. Industrial crisis were found in the situation, it was declared, and it appeared that labor had joined issue with the government in a struggle which might be long.

**Frederick Is Firm.**  
The premier's attitude toward the strike was a prominent feature in the councils of labor. The premier has given no hint of weakening or conceding to the position of the miners. He has increased his demands for an independent tribunal must be agreed to by the miners. It was believed that the threat of the railway and transport men, served him not to do the thing he was in a position to do.

**Idle Circle Widens.**  
Serious economic conditions are becoming evident in some localities and there is a growing circle of idleness. The causes concern. Drastic restriction of railway and shipping schedules has been ordered and many industries have been forced to close because of lack of fuel.

The conference of the National Union of Railwaymen was announced today to invite the miners' executive to meet the railway conference tomorrow afternoon. The meeting is expected to be held in London and will meet tomorrow to consider the railway union's invitation and the general situation.

**Disapproval of Volunteers.**  
Robert Williams, general secretary of the transport workers, declared today that the transport workers' union would not support the government's call for volunteers, especially from the middle class white guards of the community, as it was more provocation than use.

Consequently, continued the announcement, the transport men are considering the granting of an extension of the coal strike, by which the appropriate trade unions would provide the necessary food for the country.

**Pits to Be Deserted.**  
The calling of the meeting of the miners' executives tomorrow was generally believed to precede a possible resumption of negotiations with the government. This is the first meeting of the executives since the strike, and it had been expected that the meeting would be held unless approached by the government or until there were fresh proposals for consideration.

This afternoon miners' executives denied a report that the British miners had appealed to the miners' international for assistance.

The miners' conference of South Wales today asked the National Miners' Federation to call a national conference of all labor from the coal mines. The mines are being kept in order by specially assigned forces and their withdrawal could render them useless for a resumption of work.

**Drop in Wheat Sends Flour Down 1 a Barrel**  
Minneapolis, Oct. 22.—Reflecting the break in the wheat market yesterday, flour dropped as much as \$1 a barrel at local mills today. The largest mill here, the Pillsbury, reduced its price for flour from \$1.15 to \$1.05 a barrel. The price of flour here is now \$1.05 a barrel.

## You Can Tell a Man By the Way He Watches His Hat; Is Waitress Tip

"If a man watches his hat all the time he's in a restaurant he's a nervous, fussy old bird around home." This is the observation of a New York waitress.

New York—"Hat watchers," observed Hebe Sweet, "are fussy, nervous men and hard on a waitress to please. If you wish a first class on a man's nature, watch him hang up his hat when he enters a busy lunch room. Hebe Sweet is not a waitress, but she is of old fashioned name like Prudence or Thankful. Maybe she is a Piosette or a Little Possessive or a Cleopatra or Blossom or Marjorie.

Hebe's last name, also bestowed upon her by her whimsical clients, is a tribute to her personal charms, and her inevitable good nature. Hence Hebe Sweet. Hebe was dealing 'em deftly off the arm in a Park row lunch room. A middle aged man of thoughtful appearance arose from a adjoining table, picked his hat from a rack and went away.

"What you notice him?" remarked Hebe. "He worried about his hat more than he did about his food, and he was bothered enough about his hat to pick it up and look at it. I notice that I can size up a customer's disposition and nerves merely by watching him hang up his hat."

"A man who saunters in, places his hat on the nearest rack, sits down and doesn't bother to glance up at his hat again is an easy customer. He isn't thinking all the time that somebody is going to get his hat by accident or by mistake. He is sleeping well tonight. If he is married he is kind

## DEMOCRAT SPEAKER FLAYS N. P. LEAGUE

Says Real Issue Is Socialism vs. Americanism, at McCoy Booster Meet.

Declaring that the main issue of the day in Wisconsin is not between the two big political parties but is between good Americanism and socialism in the form of the nonpartisan league, W. V. Silverthorn, candidate for secretary of state on the democratic ticket gave a talk for McCoy for governor to 150 people at a meeting of the Senior class Thursday afternoon. The type of invitations was decided upon and the order for them will be placed soon. This class is the first one in this city to graduate from high school in February and as yet it is not known just how much in detail the exercises will be, but there will be exercises and a prom, which is given by individuals, and not the class as a whole. Further information on graduation will be secured by Tryn George Bassford when he attends the meeting in Milwaukee the first part of November.

The matter of selecting a committee to act with the committee selected by the B class for the Junior-Senior party was taken up and the following were elected: James Gage, Isabel Alor, and Robert Jacobs. The date for the party was decided on as Friday, November 12, and preparations will be started at once to give the annual entertainment.

Three Separate Platforms  
 There are three separate and distinct platforms in the nonpartisan league," he said. Each one is a little more socialistic. When they secure officers in power they will have three separate platforms, which is the one they are now standing on in this state. After that they will have one platform, and they will reach the last stage, which they have done in North Dakota.

"In Montana, the sentiment is as strongly democratic as it is in Wisconsin, and so they put up a man for governor on the democratic ticket. The people of Montana awake to their danger, as we people of Wisconsin are now doing, and made a campaign for all democrats to vote for the republican nominee."

Not Opposing  
 "We are not opposing the republican party," he said. "We are against farmer organizations and we are using that as one of their main arguments. There is a difference between farmer and labor organizations except as they are stated in the articles of organization of the league."

And many of the articles and talks about the league's press activities. The gave many points in his discussion of the league's activities, but he gave a menace it is to this state.

## The Letters of Tessie and Joe

DEAR JOE:

The more I see of other people's babies the more I think of ours. Not just because he's ours, Joe—I admit that prejudiced but still at the same time I flatter myself I'm impartial. The thing that I can't understand or sympathize with is that every time I meet father women with babies they act as if their child were the cream de la cream of all the babies that ever lived, and when I modestly point out a few of the points that make our baby superior to theirs they immediately start to talk back and argue in a way that would be amusing if it wasn't so vulgar. But that's the way with so many people, the minute you tell them the truth they think you're trying to insult them. How do you explain that, Joe?

I was out wheeling Baby this morning—you know the book says babies simply can't have too much air, and I believe it in spite of Mrs. Pink's opinion that the more air you have the more room you give the germs to circulate in. Although, of course, I know enough about science to know that germs simply thrive on air, no doubt because they're both invisible and like socks like. Anyway, I was out wheeling Baby, and Mrs. Brennan came along wheeling hers. You never saw Mrs. Brennan's baby, Joe, but don't let it worry you none, you haven't missed much. One of these kind of babies that you walk by without noticing. You know they're there, but you're not really looking at them. It's just the opposite with Baby. Everybody that passes either looks at him or wants to know what he's crying about or tries to stick their finger in him or something of a friendly nature.

Well, Joe, what do you think Mrs. Brennan had the nerve to do? She had the colossal nerve to stop and forcibly open her baby's mouth and show me where it was starting to get a tooth, at the same time calling attention to the fact that her baby is two weeks younger than ours. Well, that may be the case and it may not, because I've heard of people deluding their babies' ages just for the effect. Anyway, she didn't get no satisfaction out of it. I merely remarked, "I believe in developing my baby mentally," and passed coldly on.

But I wish he would come across with a tooth, Joe. Just to relieve the suspense.

Love,

TESSIE

## Heart and Home Problems

BY ELIZABETH THOMPSON  
Letters May be Addressed to Mrs. Thompson, in Care of the Gazette

Dear Mrs. Thompson: I am a girl, deep down in your heart I should go ahead and marry this girl. Yes, I think you should marry the girl since you love her so much and she loves you. But I do not think you should marry her until you have saved a thousand dollars or are able to start out in your own home which is practically paid for, as well as the furniture in it. To marry unless you are really prepared to support the girl you love would be more than an unkindness to her. She would have to save and overwork until you would lose the sweet, beautiful girl you love now, and in her place you would find a tired and irritable little woman, unfit to entertain her husband or the children which would probably come.

My picture is very realistic. If you were an older man I would be more hopeful and give my sanction to the circumstances, however, since you are so young, I honestly believe that you should wait until you are ready to make a good start in married life.

Thank You! It would be all right for you to read the two books you mentioned if you did so with your mother's consent, with the right attitude. They should be read for knowledge and spiritual good and not in order to excite the imagination and to furnish material for conversation between you and other girls of your age. Such subjects are too sacred to be used by vulgar thought and talking.

Mrs. Jane B. I am sorry but I have not the address which you have requested.

Wisconsin Rapids.—Leonard Walker, wealthy banker of this city, is in the hospital at Worthington, Minn., with his left leg amputated between the ankle and the knee as the result of trying to board a moving freight train. He was on his way to Iowa to obtain his automobile left there for repairs while on a recent trip to Ne-  
braska.

It is such a waste of time and space for me to "suppose." Sure, if the man had a great love for her he would write. He may think he cares for you, but it would never be in a satisfactory way which would give you happiness. Every woman likes to have the man she loves think of her and give her little attentions, which would include letters during separation. My advice is to forget about the sailor boy, because it looks very much as if he had forgotten you.

Dear Mrs. Thompson: I am a young man twenty-one years old and am engaged to a girl twenty years old. Her parents object to our marrying although they haven't anything against me. I am considered a gentleman and do not drink as most of the young boys do. Their only reason is that they do not want her to leave home. They think I cannot support her.

I make as much as the average man. I love her and cannot get out of her. I am sure she loves me, for she said she would marry me regardless of what her parents said.

Would you advise us to go ahead against their will? I believe some parents cause their children to live a very unhappy life for not letting them marry the one they love. I with his left leg amputated between the ankle and the knee as the result of trying to board a moving freight train. He was on his way to Iowa to obtain his automobile left there for repairs while on a recent trip to Ne-  
braska.

I could go ahead and give you the history of my life, but I don't think it is necessary. But don't you think

RECIPES FOR A DAY.  
Creamed Rice with Malted Milk.—One cup seedless raisins, four tablespoons malted milk, two cups boiling water, three cups steamed rice (hot). Season, salt and little butter and sugar. Into a baking dish place rice; add raisins; mix water

with malted milk and stir gradually until smooth. Add sugar; add and a teaspoon melted butter as desired for seasoning. Bake slowly thirty minutes.  
Diced Beef en Casserole With Vegetables.—Two pounds beef (boiling) diced, two cups diced potatoes, one cup diced carrots, one-half cup diced celery, one onion diced large. Stew beef slowly until tender; season salt, pepper; thicken gravy. Have all vegetables cooked. Place all ingredients and place in moderate oven for thirty minutes; remove, serve hot; season more if desired and use some comes with it and ask for more if necessary for richness.

Layer Cake.—Place one cup of sugar in a bowl and add yolk of one egg two whole eggs. Cream until light and then add one-half cup of shortening. Cream again and then add one-half teaspoon of salt, three cups of flour, four level teaspoons of baking powder, one and one-quarter cups of milk or water. Beat to mix place rice; add raisins; mix water

twenty minutes. Cool and then spread with jelly and put together. Cover with chocolate icing, which is made as follows: One cup of white sugar, one teaspoon of cornstarch, one-half cup of cocoa. Stir together and then add sufficient boiling water to make the mixture spread; then add two level teaspoons of butter, one teaspoon vanilla, one-half teaspoon of cinnamon extract. Beat to mix and then spread in the cake.  
GOOD SOUPS  
Cream of Tomato Soup.—One-half can tomatoes, one small teaspoon sugar, one-quarter teaspoon soda, one-quarter cup butter, one quart milk, one slice onion, four tables-  
spoons flour, one teaspoon salt, one-eighth teaspoon pepper.  
Scald milk with onion; remove onion and thicken with flour mixed with cold water until smooth enough to pour. Cook twenty minutes stirring constantly at first. Cook tomatoes and sugar fifteen minutes; add soda and rub through strainer. Add milk and rub through strainer into a heated dish over butter, salt and pepper. Bake in two layers in a hot oven for

Clam Bisque.—Twenty-five large clams in shell (alive), one large cup milk or cream, two tablespoons butter, two tablespoons allspice, two tablespoons flour, yolk of one egg.  
Wash clams thoroughly; put in kettle with one pint boiling water and cook until shells open. Remove the clams and separate the dark part (the clams finely and add them to the water in which they were cooked; then add allspice. Heat the milk. When ready to serve, pour milk into clam broth; add the well beaten egg yolk and a dash of red pepper and strain.

## What is Your Pet Superstition

The Right Hand Turn.  
In European countries, traffic turns to the left, in New York, for instance, the traffic cop thinks we turn to the right because he says so, but in reality, in doing so we are following one of the oldest superstitions of which there is record. It is that all order and harmony in life come from doing all things with a motion that corresponds to the course of the sun.

This is why it comes so natural to screw in a screw with a right hand motion or to twist the hair, for instance—that thing there is no other way. The older generation of Scotchmen, today, have a whole series of traditional observances built up on this superstition. These observances control the lowering of a coffin, the putting on of a roof, and the approach of a man to a house. In the latter case, if satisfaction is to result, the visitor, the caller, turning to the right, walks three times around before entering.

It is interesting to speculate on whether or not the beginnings of this custom are related in any way to the physiological fact that the lobe of the brain controlling the right hand is more highly developed than that controlling the left, and that the outward motion is the natural one by virtue of the structure of our hand and arm muscles.

Penile du Chien.—Mrs. Robert Glenn, widow of Senator Glenn, died at her home here after a short illness. She is survived by one son, four daughters, and a sister.

## Delicene

Reg. U. S. Pat. Off.

Hands up!—

Can you show them fearlessly? Or do you keep them "tucked under" because they are red and rough?

You can always be proud of them if you use Delicene. Rub a little fragrant Delicene in your hands after washing. It not only protects your skin—it soothes and heals it, and keeps it soft and white as nothing else will.

# BASKET-OUTLOOK HERE UNSETTLED FOR NEXT SEASON

Basketball outlook in Janesville for the coming winter is unsettled. While it may be early to make any predictions, so far there is hardly anything on which to base conclusions.

First in consideration comes the Janesville Cardinals, winners two years ago of the championship of the Central Amateur Athletic Union, and last year of the championship of Wisconsin. What they may do depends practically entirely upon the outcome of the next meeting of the newly formed state industrial basketball league, which so far has barred the Cardinals from membership because they are an amateur organization. This next meeting is to be held November 1 at a place to be set.

Luck Good Floor Here.

It is unlikely that the Cardinals will do much this year if they are not admitted to membership in the industrial league. They are being kept out of that circuit because they do not represent any business house and because they would find it impossible to live up to the rules of the league that fix the way in which the team must work for the plant they represent.

The great handicap against basketball in Janesville, although it has been the major sport until this year, when baseball took its place, is the lack of suitable playing facilities. The armory floor is the only adequate hall but that has always been a bad place because its constant use for dances makes the surface of the floor very slippery for good games.

The Janesville Tractor company is waiting upon the action of the Janesville basketball league. If the Cardinals play again this year, the Tractors will not have a team. On the other hand, until something definite is decided by the Cardinals, the Tractors will not even commence thinking about basketball. The only available place for the speedy indoor game is at the foundry where it may be possible to use the floor there for several months by spreading canvass over it.

Organized several years ago, and having made a name for themselves in junior circuit, the Cardinals will return to play again this year with several of last year's high school stars in their lineup. This fact is a big plus up for the team, and the outlook is good for a bigger one this year. They play in the Y. M. C. A.

Three H. Men Come.

As to the high school team, while it will have some of last year's second line men on the five, the Cardinals will have a new line of players. Powers and the other men who were in the team last year and will be missed considerably this year.

Every indication is held out that the Janesville league, which went along quite well last year, will be stronger this year. This is under way until does not seem to be in the season.

Company "I" tank corps is planning to get a five-man team and put it in the line of the field to meet all comers. The guardsmen plan to book a number of games without teams and play in their own honor. It has taken place. The team will make every effort to put up such a team as to make it a national guard basketball tournament that is now being planned.

What will be done for the grade schools this year is a question that will be decided later. Very likely another league will be formed on a firmer basis than that of last year.

# BELOIT HITS STRONG KNOX SQUAD OCT. 23

Galesburg, Ill., Oct. 22.—Knox college will celebrate its annual homecoming tomorrow with a football game against Beloit college. Knox and Beloit are old time rivals and many of the alumni are expected back for the game. Knox will be crippled because of the loss of Campbell, star kicker, who broke his leg last Saturday.

This game will be Beloit's first battle away from home. This season, the Gold expects a tough fight, reports reaching the Gateway city that Knox has its strongest team of years. However, hope is taken from the fact that the Galesburg bunch has not won a game so far, losing one and tying two, while Beloit has won one and lost one.

Beloit has had a week's rest. Twenty men accompany the Beloit squad to the Illinois town.

# ROLLIE AND ROWDY STAR AT WISCONSIN

"Twister" Rollie Williams is going to start for Madison at Beloit back in the game with Ohio state at Columbus, Saturday. Rollie, Janesville's pride on the basketball floor, has made good. It has been expected for some time that he was being saved for some of the important games, and Saturday's contest means that either Ohio or Wisconsin may be put out of the Big Ten running. Elliott will be his running mate.

"Rowdy" Elliott, another local favorite, is also starting. These two men have received more comment on the whole than any others so far on the squad.

The Badger squad left Thursday for the Buckeye town.

# Lathrop Is Ace of Samson Tractor Twirlers Any Way You Figure It

By FRANK SINCLAIR

"Smiling" Bill Lathrop was the ace of Samson Tractor pitchers in the first season of semi-professional baseball just closed here. Anyway you look at it, "Rusty" wins the medals. It was his steady, heady, cool and dependable work game after game that won him such merits. He was not a kicker; he was a worker. He never shirked; he went to the mound time after time when Manager George Tearing was up a lince and could not procure the necessary pitching material of sufficiently high quality. For a period during mid-summer, Will was overworked, but it never bothered his pitching arm nor interfered with his ability.

# Dumont Won 13 of 23

Of the Samson's five pitchers, Lathrop stands out far in the lead. Out of 23 games that he pitched, he won 13 for Janesville, a record of 72.5 percent. Besides he dashed home with one streak of 11 straight victories and another of six straight.

Next in line for wins was "Speeder" George Dumont who garnered 12 scalps out of 23 games, a percentage of 52.2. George was a little more unfortunate, never winning more than three straight at any one time, which he did three.

Of the other twirlers, Wooten won three and lost four; Walsh won two and lost two (he was yanked once, Lathrop winning the game, and relieving Wooten once, but failed to win); and Gregory, who came to Janesville late in the season, won one, relieved Wooten once and Dumont once but could not save the day in either game.

# Lathrop Never Yanked

Lathrop was never yanked from the box. Dumont, however, was pulled three different times. Toward the end of the year, "Speeder" did not seem to have the stuff necessary to win, although it must be said that he worked mighty hard and put lots of stuff on the rawhide. He seemed to hit some kind of a "fix" that bothered him in the box whenever the visitors started getting to his curves and fast balls.

In his 21 victories, Lathrop shot across five shutouts. Dumont whitewashed three teams in his 13 wins, and Walsh gets credit for blanking one opponent.

Coming now to the hits, Lathrop and Dumont appear to be almost equally ranked. Each allowed approximately seven hits a game. Lathrop gave 207 hits. In 23 contests Dumont allowed 19 hits. The greatest game that "Big Bill" pitched was when he shutout the Havoline at Lawrenceville, Ill., and gave that club only one hit. Dumont's record was two hits when he shut out Rogers Park. Walsh allowed the entire

# TINY COLLEGE READY TO SURPRISE WORLD AGAIN

The Centre college eleven returning a kick-off. Numbered stars are: Capt. McMillin (1), Roberts (2), Weaver (3) and Montgomery (4). McMillin is carrying the ball. Center picture is McMillin.

By NORMAN E. BROWN.

Centre college, that little institution at Danville, Ill., which startled the football universe by its lowly, yet victorious, season last year, appears to be set to duplicate its 1919 efforts this fall.

Centre college has a total enrollment of 200 students. The average football squad of the big eastern colleges at the opening of the grid training season has about 100 hopefuls. The Danville eleven opened its campaign last fall by defeating Hanover 37 to 0. Everybody but Hanover laughed. Then Centre tackled the powerful Indiana eleven and trounced it 12 to 3. Not so much laughing. Then it licked St. Xavier 65 to 0, Transylvania 37 to 0 and Virginia U. 49 to 7. No laughing at all on the sidelines—except at the expense of the defeated clubs.

West Virginia University came next. That mountain school had licked Princeton 25 to 0. That didn't worry the Centre college boys. They walloped West Virginia 14 to 6.

That same Princeton team had beaten Harvard and tied Yale. Harvard beat Brown. Brown beat

Dartmouth. Dartmouth beat Pennsylvania. Pennsylvania tied Pittsburgh. Pittsburgh beat W. and J. The last named team had beaten Syracuse. And Syracuse beat Colgate. These results are cited to show that Centre college, on comparative scores, could just about claim all the glory in the season.

One of the big stars of Centre's team last year was "Bo" McMillin, who is playing quarterback and is, in fact, a clever man in an open field and a hard man to elude when on the defensive.

"Red" Roberts, fullback, is another star. James "Red" Weaver, center of the Centres, and an oil-well driller in summer, is another great player on the team. Ralph Montgomery, tackle, and a Port Worth, Tex., boy, is another brilliant player.

Whether this year's aggregation, which has eleven letter men back this year, can equal its great record of 432 points scored to its opponents' eighteen remains to be seen. But the public is going to keep one eye on the roaring, plunging outfit from the Danville institution.

# CENTER DRAWING GREAT INTEREST IN GAME WITH HARVARD

New York, Oct. 22.—An international football game of far more than normal interest features the gridiron schedule of Saturday in the meeting of Harvard university and Centre college, of Danville, Ky.

Attention was first focused upon Centre college teams several seasons ago when reports of large and unsightly scores became so common.

Gradually the report spread that the football eleven developed at the little Methodist institution, from less than 400 students in the Kentucky Blue Grass region, were not the result of freak or haphazard conditions, but the fruition of a system claim all the glory in the season.

# HARVARD SICK LIST REPORTED SMALLER

Cambridge, Mass., Oct. 22.—The names of Centre college and Harvard university were on the lips of every football fan in this section of the country on this day before Lathrop and his team met on the tucky and the Crimson met on the gridiron.

Harvard enthusiasts were heartened today by word that Captain J. H. S. had recovered sufficiently from an injury to start in the game.

Three other regulars, Keith Kane, and Tom Woods, guard, and "Bub" West, tackle, were also stepped out of the hospital list and were slated to be in the line-up.

# CORNELL IS AFTER JENNINGS FOR COACH

Ithaca, N. Y., Oct. 22.—Hughes Jennings, former manager of the Detroit American league baseball club, may be chosen as Cornell university baseball coach at a meeting of the Alumni Baseball association here Saturday.

# TIGERS WILL TRAIN AT TEXAS IN SPRING

Detroit, Oct. 22.—The Detroit American league team will train at Waco, Tex., next spring, Frank Savin, president of the club, announced.

# JEFFERSON STAR END OUT; MEANS CHANCE FOR BLUES

When Jefferson high marches on the football field at the fair grounds here Saturday to clash with the squad of Janesville high school, it will present a crippled outfit. Blum, the speedy right end, upon whom Jefferson depended for trick runs for touchdowns, still suffers from a broken leg received in the game three weeks ago with Monroe. Though it would appear on the surface that Jefferson was the upper hand, having defeated Monroe and Monroe having whipped Janesville, yet the confidence of the Janesville Blues and their showing last week at Monroe sounds good. Confidence added to their rapidly growing experience should stand them in good stead on the local field Saturday.

Playing on their home grounds, the Blues should play a great battle with 500 students on the sidelines rooting for the team. Let the student body show they believe in the eleven, and every indication is that J. H. S. will have something to talk about Saturday night.

## MIX-UP HERE IS PUZZLING 'EM ALL

Lawrence Does Not Know And  
Jumps At A Guess on  
the Result.

By DAVID LAWRENCE.  
(Copyright 1920, Janesville Daily  
Gazette.)

Milwaukee, Oct. 22.—If ever there was a mixed up, topsy turvy political situation, the state of Wisconsin this year presents such a paradox. Consider these facts:

John J. Blaine, regular republican nominee for governor, has the support of La Follette and the non-partisan league and German element.

Robert Bruce McCoy, democratic nominee for governor, has the support of republicans and democrats who are opposed to La Follette and the non-partisan league.

Morgan and McCoy  
W. J. Morgan, who is running for attorney general on the same republican ticket with Blaine, fought the latter in the primaries and since has announced that he will fight him at the polls by voting for the democrat, Mr. McCoy.

The non-partisan league and La Follette republicans decided after this announcement not to support Mr. Morgan for attorney general but to throw their support to A. C. Larson, nominee for the same office; whereupon the Milwaukee Journal, the influential newspaper throughout the state, which has been supporting the entire democratic ticket, promptly withdrew from support of Larson and decided to support Morgan, republican.

Many independent voters are doing the same thing.

Senatorial Situation  
Trivette Leinroot, candidate on the regular republican ticket for re-election to the United States senate, is being fought by James Thompson, independent republican candidate, who was unsuccessful in the primary race for this office, and by Dr. Paul R. Reinsch, democrat, formerly minister to China.

Mr. Thompson has the support of the La Follette and non-partisan factions and is denouncing Leinroot for having voted for the league of nations even with reservations.

Harding by 100,000  
Dr. Reinsch is supporting the league of nations and says his only regret is that article 10 isn't stronger. He is a distinguished scholar and credited with having induced China to enter the war against Germany. He is a distinguished scholar and formerly was head of the department of political science in the University of Wisconsin. He will get a fairly good slice of the German vote purely through German pride of race. There are about 1,000,000 Germans in Wisconsin out of a total population of less than 2,000,000.

Senator Harding is sure to carry the state by at least 100,000 over Cox, but it is doubtful whether in a three-cornered fight Leinroot will pull through. Indeed, Senator Harding has issued an appeal urging the election of Leinroot, something which will cost Harding votes with the La Follette republicans who are supporting Thompson for the senate. But Harding can afford to lose some votes and still carry Wisconsin by a comfortable majority.

Opportunity for Reinsch  
Mr. Thompson, however, will divide the republican vote with Leinroot and thus give Dr. Reinsch opportunity to squeeze in as the Progressive Wilson did in 1912 when Taft and Roosevelt split the republican strength in the state.

Another thing, Leinroot is a dry in a state which contains a million Germans which still like that certain something which made Milwaukee famous.

One Guess Only  
So, summarizing the mix-up, anyone who can figure out the result is entitled to considerable distinction. For the leaders, frankly, confess they are puzzled. The best judgment one gets here is that Harding will get the electoral vote easily; that Reinsch, democrat, has an even chance to defeat Leinroot; and that Robert Bruce McCoy, democrat, has a better than even chance to be elected governor.

Hutchins Inaugurated as

## GARFIELD WAS SEC. OF INTERIOR UNDER ROOSEVELT

James R. Garfield will be the only speaker of national note to come to Janesville during this campaign. He is not unknown to the people of Rock county as he spoke here eight years ago.

Mr. Garfield was secretary of the Interior under Col. Roosevelt's administration and has been a prominent figure in the republican party for many years having been allied with the progressive wing generally. He is supporting Harding and Coolidge and is one of the leading speakers in the republican campaign this year.

He will speak at the Apollo theater on Tuesday evening next.

## RELIEF FOR DYING PEOPLE IN POLAND

(Continued from Page One.)  
The American Jewish relief work in Poland to such an extent that the work will virtually have to be started over again," said Harry H. Rosenfeld, Director of the American Jewish Relief Committee, in commenting on the imperative need, in connection with the appeals of the Committee.

Destroyed Organization.  
"Two armies have passed twice over this territory bringing with them each time all the hardships and sufferings of war and the Jews, being mostly an urban people, have suffered the heaviest. All the magnificent relief organization of Poland, has been virtually destroyed and will have to be built up again.

Reports from Dr. Goldman, Dr. Harry Plotz and other authorities indicate that the coming winter will be the most severe that the Jews of Poland have ever experienced. Typhus, it is feared, will return in even worse form than the terrible epidemic of last year.

Will Take Large Sums.  
"To carry the Jewish population, particularly the hundreds of thousands of homeless children, over the winter and not to let the work accomplished so far to have been in vain, large funds are vitally necessary, particularly if we are to preserve the Jewish child life in Eastern Europe.

The first of the fall appeals of the Committee are now taking place in Northern California and Wisconsin. Western Canada is also organizing an appeal, the first held. To aryan campaign it has ever held. To add further funds, Mr. Rosenfeld plans extending the intensive campaign to Cuba and Porto Rico, this fall, where chairmen have already been chosen, and to widen the scope of the non-sectarian campaigns until they eventually take in practically all the Central and South American countries.

Three Years Relief Work.  
"Relief work must be continued in Poland for three years at the least and constructive relief must go on for even a longer period," declared Isidore Hersfield, attorney of 40 Nassau Street, recently returned from 18 months' relief service, in a report prepared for the American Jewish Relief Committee, of which Louis Marshall is chairman.

"As a most conservative estimate, 2,000,000 of the 4,000,000 Jews in Poland are absolutely dependent upon outside aid for their very existence," he reported. "In some cities and towns we registered as high as 80 per cent of the Jewish population, which required emergency relief."

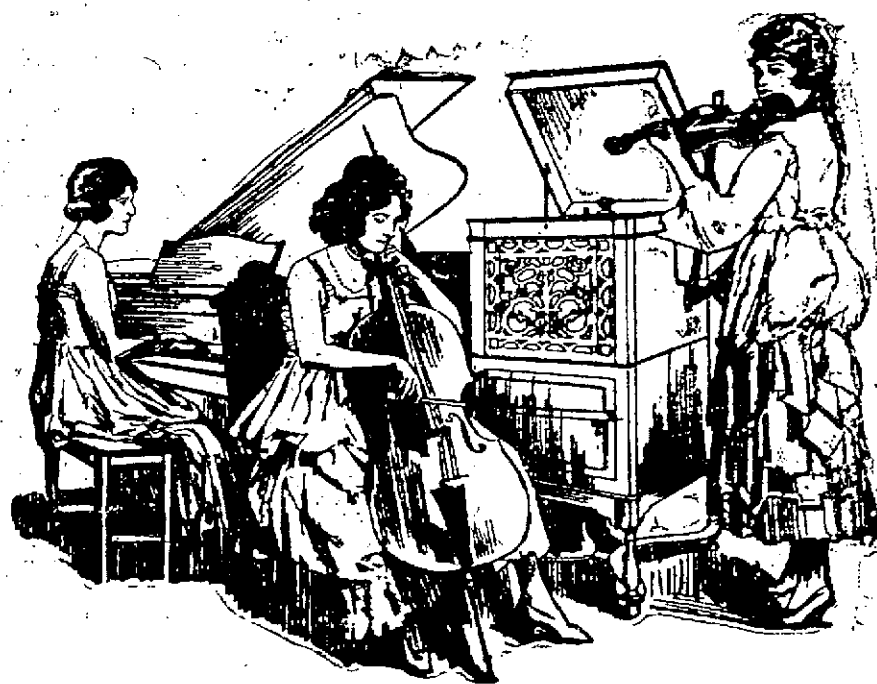

For Self Support.  
"The people are anxious for constructive relief, they want to be self-supporting again, but conditions are so acute, aggravated by the Polish-Bolshevik fighting, the thousands of refugees and war orphans, that emergency relief must be stopped, especially the support of hospitals, orphanages, homes for the aged, soup kitchens and institutions."

"If economic conditions do not improve in Poland, more people will be thrown out of work and our relief problems will become even more serious."

## BAN IS PLACED ON JAPANESE BRUSHES

London.—Nearly every week colonial or independent governments in Africa, Asia or Oceania decide to prohibit the importation of Japanese brushes because they have been found to be dangerously infected. The Gold Coast Colony is this week's government to take action. An order in council absolutely bans the importation of Japanese shaving brushes "manufactured in or exported from Japan, direct or otherwise."

# Last Night's Audience Mystified by Phonograph

## Hears famous artists compare art with RE-CREATION by Edison's new phonograph—could not tell the two apart.

HARDY WILLIAMSON and The Fleming Sisters Trio gave an extraordinary recital last night at the Methodist Church.

Hardy Williamson walked on to the stage and stood beside a stately calinet. He began to sing "The Holy City". The audience immediately yielded to the spell of his beautiful voice. Then suddenly there was a stir—a subdued murmur of surprise—and a perplexed rubbing of eyes. The voice continued to fill the auditorium with undiminished sweetness—your ears were proof of that—but his lips had become absolutely silent—your eyes told you that.

What wizardry was this? It was the test of direct comparison with

the living artist, which Thomas A. Edison has developed to demonstrate that the Official Laboratory Model of his new phonograph will sing any song exactly as it was sung by the artist, and that his RE-CREATION of a singer's voice, as it comes from his wonderful new phonograph, positively cannot be distinguished from the singer's actual voice, when both are heard in direct comparison.

Hardy Williamson made repeated comparisons—always with the same result. It was truly wonderful. The Fleming Sisters Trio made similar tests, and they were equally amazing. This master achievement of the great wizard, Edison, marks a new epoch in music.

# The NEW EDISON "The Phonograph With A Soul"

You can have a duplicate of the wonderful instrument used at the Methodist Church and, if you act quickly, we can furnish you with an engraved certificate (signed by Hardy Williamson and The Fleming Sisters Trio) certifying that it is an exact duplicate in tonal quality of the instrument they used in their amazing comparison; also that it will sustain precisely the same test.

We have six of the famous Official Laboratory Models and the artists have certified every one of them. Come to our store at once and ask to see and hear the Official Laboratory Models on which Hardy Williamson and The Fleming Sisters Trio have issued their Certificates of Authenticity.
